  - Identity providers
  - Account settings
- Access reports
  - Access analyzer
  - Archive rules
  - Analizers
  - Settings

**Introducing the new IAM dashboard experience**  
We've redesigned the IAM dashboard experience to make it easier to use. [Let us know what you think.](#)

## IAM dashboard

### Security recommendations 2

- Add MFA for root user**  
Enable multi-factor authentication (MFA) for the root user to improve security for this account.
- Add MFA for yourself**  
Add multi-factor authentication (MFA) for yourself to improve security for this account. [Add MFA](#)
- Your user, vaish@123, does not have any active access keys that have been unused for more than a year.**  
Deactivating or deleting unused access keys improves security.

## Set user details

You can add multiple users at once with the same access type and permissions. [Learn more](#)

User name\*

cc@11

+

Add another user

### Select AWS access type

Select how these users will primarily access AWS. If you choose only programmatic access, it does NOT prevent users from accessing the console using an assumed role. Access keys and autogenerated passwords are provided in the last step. [Learn more](#)

Select AWS credential type\*

☒ Access key - Programmatic access

Enables an access key ID and secret access key for the AWS API, CLI, SDK, and other development tools.

☒ Password - AWS Management Console access

Enables a password that allows users to sign-in to the AWS Management Console.

Console password\*

☐ Autogenerated password

Add tags (optional)

IAM tags are key-value pairs you can add to your user. Tags can include user information, such as an email address, or can be descriptive, such as a job title. You can use the tags to organize, track, or control access for this user. [Learn more](#)

Key	Value (optional)	Remove
<input type="text" value="Add new key"/>	<input type="text"/>	

You can add 50 more tags.

Success

You successfully created the users shown below. You can view and download user security credentials. You can also email users instructions for signing in to the AWS Management Console. This is the last time these credentials will be available to download. However, you can create new credentials at any time.

Users with AWS Management Console access can sign-in at: <https://899935280173.signin.aws.amazon.com/console>

Download .csv
